Cal OES Fire Preparedness Levels		
National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 3	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 1

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

## **INLAND REGION**

### **Flat, Vegetation Fire, Trinity County**

Location: Reading Creek Rd., 5 miles SE of Douglas City

Jurisdiction: State DPA, SRA, FRA

Start Date/Time: 06/28/18 at 1801 hours

Per Cal OES Duty Officers and ICS-209 as of [07/04/18 at 1715 hours](#):

- 300 acres, [90% contained](#)
- Expected containment: 07/06/18
- Crews continue to strengthen and improve containment lines

### **Lions, Vegetation Fire, Madera County**

Location: Lion Point, in the Ansel Adams Wilderness Area

Jurisdiction: Federal DPA, FRA, Sierra NF/Inyo NF

Per Cal OES Duty Officers and ICS-209 as of [07/04/18 at 1710 hours](#):

- 4,000 acres, 60% contained
- Expected containment: 07/14/18
- Moderate fire behavior, flanking and isolated torching
- Managed fire for multiple resource benefit

# **FIRE ACTIVITY**

## **INLAND REGION (Continued)**

### **County, Vegetation Fire, Yolo and Napa Counties**

Location: County Road 63 x Highway 16, Rumsey Canyon

Jurisdiction: State DPA, SRA

Type-3 IMT

Start Date/Time: 06/30/18 at 1412 hours

Per Cal OES Duty Officers and ICS-209 as of **07/04/18 at 1750 hours:**

- **86,000 acres, 27% contained**
- Expected containment: 07/10/18
- Continued threat to Snow Mountain National Monument

### **Activations**

- Yolo County Emergency Operations Center (EOC) is activated at Level 1 on 07/04/18 at 0600 hours
- Napa County EOC is at Duty Officer Status at this time

### **Deployments**

- 2 Cal OES Fire and Rescue Branch Assistant Chief assigned
- 4 Public Safety Communications Technicians (PSCTs) and 1 trainee

### **Cal OES Assistance**

- On 07/02/18 at 2054 hours, the Incident requested 10 satellite phones from Cal OES to support firing operations.
  - Per the Cal OES TACCOM Duty Officer (TDO) the equipment was delivered on 07/03/18.

### **FMAG**

- On 07/01/18 at 1322 hours, a Fire Management Assistance Grant (FMAG) was received. The request has been placed on hold.

# **FIRE ACTIVITY**

## **INLAND REGION (Continued)**

### **County, Vegetation Fire, Yolo and Napa Counties (Continued)**

#### **Evacuations**

- Mandatory evacuations (Less than 700 persons)
- Mandatory: North of Hwy 128 in Yolo County, not including the City of Winters, South of County Rd. (CR) 23, east of Berryessa Knoxville Rd.
- Mandatory: West of CR 89, south of the community of Esparto
- Mandatory: Residences served by Hwy 128, between Monticello Dam and Pleasants Valley Rd. (Golden Bear Estates)
- Mandatory: West of Hwy 16, to Berryessa Knoxville Rd., South of Old CR 40, and North of CR. There are no permanent residents in this area, only the potential for visitors/campers.
- Yolo County:
  - Advisory: North of Quail Canyon Rd., south of Hwy 128, east of the Blue Ridge mountains, west of Pleasant Valley Rd.
- Napa County:
  - Advisory: Communities of Berryessa Highlands, Markley Cove and Pleasure Cove Resorts, defined as east of Capell Valley Rd., north of Hwy 128 from Capell Valley Rd., east to the Napa County line and all of Steele Canyon Rd.

#### **Evacuation Centers/Shelters**

- Evacuation Center: Boy Scout Cabin, 16960 Yolo Ave., Esparto, Yolo County
  - Hours of operation: 0700-0000 hours beginning on 07/02/18, 0000-0700 hours (standby)
  - Population, as of 07/04/18, 0751 hours: 0
- 400 person shelter supplies on standby
- There are currently no shelter needs for Napa County

#### **Road Closures**

- SR 128 between Markley Resort and Pleasants Valley Rd.

#### **Animal Shelter**

- Large Animal: Yolo County Fairgrounds, 1250 Gum Ave., Woodland
- Large Animal evacuation centers are being coordinated through the Yolo County Sheriff's Office
- A veterinary emergency response team is on standby.

#### **Missions**

- 2018-IREOC-47791: 2018 June Inland Fires - Two portable air quality monitors were requested.
  - One to be located at 26490 Woodland Ave., Esparto, at the Esparto Community Services District facility
  - One to be located at 501 E. Main St., Winters, at the fenced well site

# **FIRE ACTIVITY**

## **INLAND REGION (Continued)**

### **Petersburg, Vegetation Fire, Siskiyou County**

Location: Petersburg x Caribou Creek Rd., 3 miles southwest of Cecilville

Jurisdiction: Federal DPA, FRA, Klamath National Forest

Start Date/Time: 07/01/18 at 1440 hours

Per Cal OES Duty Officers and ICS-209, as of 07/04/18 at 1649 hours:

215 acres timber, brush, 50% contained

- All evacuation warnings lifted
- Structure threat mitigated
- Other minor structures: Damaged 0, Destroyed 2

## **COASTAL REGION**

### **Pawnee, Vegetation Fire, Lake and Colusa Counties**

Location: Pawnee Rd. x New Long Valley Rd., 4 miles NE of Clear Lake Oaks

Jurisdiction: State DPA, SRA

Type-3 IMT assigned

Start Date/Time: 06/23/18 at 1726 hours

Per Cal OES Duty Officers and ICS-209 as of 07/04/18 at 1800 hours:

- 15,000 acres, 90% contained
- Expected containment: 07/05/18
- Single Residences Damaged 3, Destroyed 12
- Other minor structures Damaged 3, Destroyed 10

### **Deployments**

- 2 Cal OES Fire and Rescue Branch Assistant Chiefs
- 2 Public Safety Communications Technicians (PSCTs) and 1 trainee assigned

# **FIRE ACTIVITY**

## **COASTAL REGION (CONTINUED)**

### **Pawnee, Vegetation Fire, Lake and Colusa Counties (Continued)**

#### **FMAG**

- On 06/23/18, an FMAG request was received by Cal OES. On 06/24/18, the FMAG was approved by FEMA; FEMA-5244-FM-CA.

#### **Proclamations**

- On 07/03/18, a Proclamation was received from the Lake County Health Officer, proclaiming a Local Health Emergency due to the effects of the Pawnee Fire. They are not requesting assistance at this time.
- On 07/02/18, a Proclamation from Yolo County Flood Control and Water Conservation District was received due to the Pawnee Fire. They are not requesting any assistance at this time; however, CDAA is anticipated to be requested on 07/03/18, when the board ratifies the Proclamation.
- On 06/25/18, Governor Edmund G. Brown Jr. issued an emergency proclamation for Lake County due to the effects of the Pawnee Fire, which has destroyed homes, threatened critical infrastructure, and caused power outages and the evacuation of residents.

[Click here for full proclamation](#)

- On 06/24/18, a Proclamation of Local Emergency was received from Lake County as a result of the incident. On 06/27/18, a letter was received from Lake County requesting disaster assistance under CDAA. On 07/03/18, a Resolution confirming the existence of a Local Emergency was received from Lake County, officially requesting CDAA and that the emergency proclamation be forwarded to FEMA for consideration under the Stafford Act.

#### **Health/Medical**

- 1 Air Monitor is currently placed in Middletown and available to move to other locations as needed.
- 1 Air Monitor is in Clear Lake.

#### **Recovery**

- CAL FIRE damage inspectors, along with Lake County building inspectors, assessed areas on 06/26/18 for initial damage estimates.
- Public works is removing hazardous trees in fire affected areas in anticipation of re-entry.

# California 911 System

CA 911 Outages		
Northern California	Central California	Southern California
No 911 Outages	No 911 Outages	No 911 Outages

## 911 Outages/Remote/Community Isolations:

- None reported.

## Service Interruptions:

### Sacramento Police Department, Sacramento County ([New/Final](#))

On 07/04/18 at 1016 hours, the California State Warning Center (CSWC) received a report from the CA 911 Branch of a Telephone Denial of Service (TDOS) Attack on the Sacramento Police Department's 10 digit non-emergency lines in Sacramento County. The attack has been ongoing since 07/03/18 at approximately 2250 hours.

- This is not affecting their 9-1-1 lines.
- It is affecting their ability to send and receive transfers from other PSAPs.
- It may be a statewide attack, but we the CA 911 Branch is unable to confirm.
- The CA 911 Branch has reached out to all 58 counties.
- AT&T and Frontier have also been notified and will report back if any other PSAPs are affected.
  - AT&T has reported that Cal Fire – CZU and Riverside Police Department are experiencing the same issue and have opened tickets with AT&T.
  - PSAPs are also reporting that the call prompts PSAP personnel to 'enter PIN' when they answer the phone.
- AT&T is reaching out to the PSAP to put them in contact with their Global Fraud Department, in order to begin an investigation and work toward resolution.
  - The AT&T Fraud Desk is not opened on holidays, they will begin their investigation the morning of 07/05/18.
- Unless any other PSAPs notify the CA 9-1-1 Branch, or any other issues arise, all updates will commence on 07/05/18 at 0800 hours.

On 07/04/18 at 1334 hours, the CA 911 Branch advised the CSWC:

- Reports from the field indicate that the TDOS attack ended late last night, approximately two hours after it began.
- The information that the attack was ongoing, provided to the CA 911 Branch on 07/04/18, was incorrect.
- The CA 911 Branch reached out to confirm and currently no robo-calls are coming in.
- AT&T, as well as the STAC, have been notified in case any other attacks start coming in.
- The AT&T Global Fraud center will still investigate the incident starting the morning of 07/05/18.

OF EMERGENCY SERVICES

# WEATHER OF CONCERN

## Weather of Concern

### **Northern California:**

- The San Joaquin Valley Air Pollution Control District has issued an Air Quality Alert through Thursday for the San Joaquin Valley due to impacts from wildfire and holiday fireworks smoke.
- Red Flag Warnings are in effect Thursday afternoon through evening for portions of Siskiyou and Modoc counties.

### **Southwest California:**

- A significant heat wave is expected to affect Southwest California Thursday, 07/05/18 through Sunday, 07/08/18, with the most dangerous heat expected on Friday and Saturday when record triple digit heat will be likely across many inland area.
  - During this time, valley, lower mountain, and desert locations are expected to range between 102 and 112 degrees.
  - Many portions of the coastal plain are expected to soar into the 90s to around 100 degrees, with heat impacts magnified due to lack of air conditioning for many coastal residents.
  - This heat will be accompanied by very dry conditions, with the potential for widespread single digit humidities on Friday and possibly Saturday.
  - Gusty northerly winds will affect portions of Southwest California, strongest across the mountains, Santa Barbara south coast, and Santa Clarita Valley where gusts will likely range between 35 and 45 mph.
  - These areas will have the potential for critical fire weather conditions, resulting in the issuance of a Fire Weather Watch.
  - This is a significant heat and fire weather threat, urging everyone to take necessary heat safety precautions and use extreme caution with any potential ignition sources.

### **Southeast California:**

- Excessive heat is forecast for much of the region on Thursday through Friday; as temperatures are expected to become brutal and extremely hazardous for southeastern California.
  - High temperatures are forecast to top out above 115 degrees for most urban areas.
  - Excessive Heat Warnings are in effect Friday morning through Sunday evening for portions of the forecast area.

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

The main focus near term will be increasing southerly winds ahead of a vigorous offshore trough. The trough should relax its grip on the area during the weekend and allow a Four Corners High to strengthen and build northward into next week. This means developing hot conditions. Monsoonal thunderstorms could be in play late next week favoring the eastside. Gusty southerly winds will develop this afternoon across NE CA and Far Eastside as well as the middle and upper portions of the Sacramento Valley. General gusts should range between 25-30 mph although some locations within the Shasta Valley should experience gusts up to 35 mph. RH values will range between 15-25% within the windier areas although much higher near the coast and within the Delta Region. Similar southerly wind speeds are expected Thursday and Friday across NE CA and Far Eastside while speeds within the Sacramento Valley should lower slightly. Humidity values should trend slightly lower Thursday/Friday although remain high along the coast/inland coastal areas. There is a slight chance of showers and thunderstorms over the Modoc Plateau and Lassen area late Friday as a result of some movement of the offshore trough. As mentioned above, a Four Corners High should become well asserted during the weekend and provide a warming and ultimately drying trend. One out of three extended ensemble models is showing a secondary trough passage early next week but confidence is low.

## **SOUTHERN CALIFORNIA**

**Very hot and dry Friday and Saturday over Southern California.**

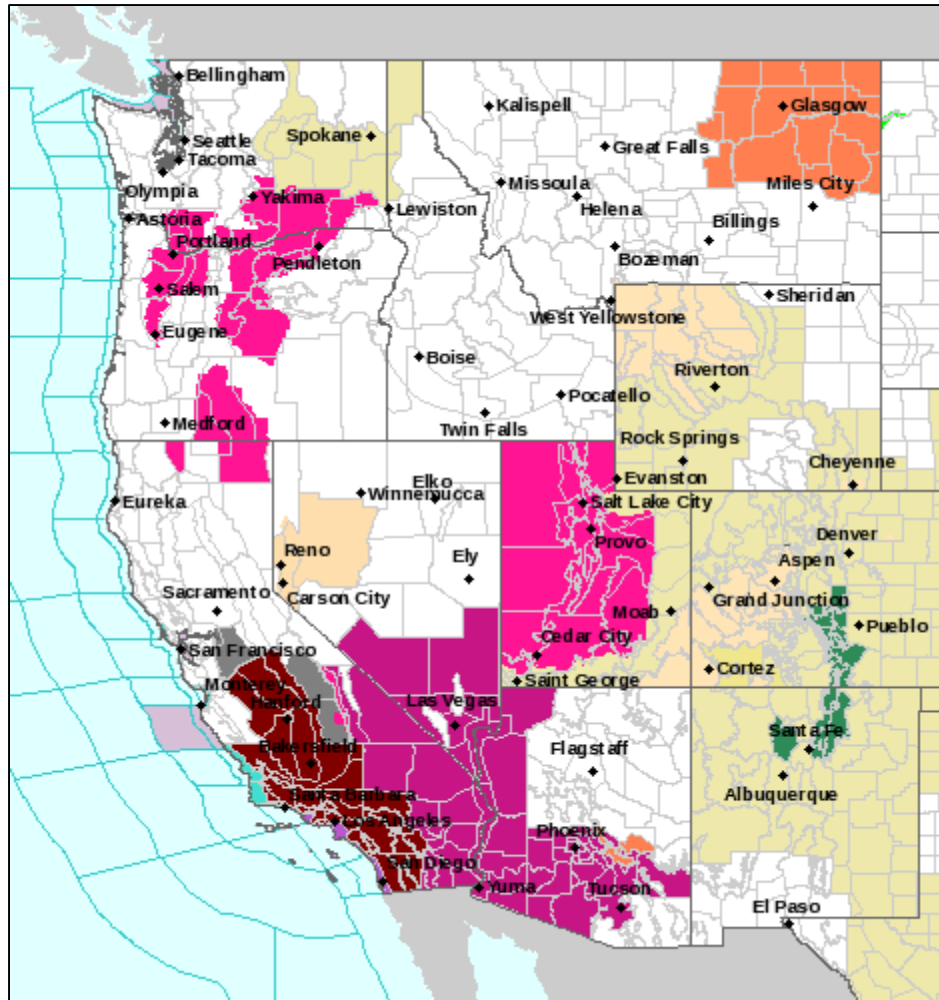

**Sundowner winds expected across Santa Barbara County Friday into Saturday.**

**Isolated thunderstorms starting Friday and continuing into much of next week.**

Strong high pressure over the Central and Eastern United States will build westward towards California in the coming days resulting in a significant heat wave across the southern portions of the state. **The hottest weather will be Friday when the inland valleys south of Point Conception will be in the 106 to 112 range.** To complicate matters, gusty sundowner winds will occur across Santa Barbara County Friday into Saturday morning, and isolated thunderstorms (some dry) will be possible over the southern mountains and deserts starting Friday. Increasing subtropical moisture will help to expand the threat of thunderstorm activity to include the Sierra this weekend with storms becoming wetter by Sunday. Temperatures will lower a little over the district and humidity values will increase from the expected minimums in the single digits and teens on Friday. However, it will continue to be hot with daytime highs above normal for early July. Daytime highs will continue to be above normal through at least the middle part of next week with a continued threat of thunderstorms (mainly wet) across the mountains and deserts, including the Sierra.
